Summary: As of 11/14/2015, 23 cases of confirmed influenza were reported to the Boston Public Health Commission (BPHC) since 10/1/2015, with five (22%) cases requiring hospitalization. One influenza-associated death has been reported. Emergency department visits for influenza-like illness (ILI) comprised 0.53% of all ED visits this week.

Influenza activity in Boston remains sporadic. BPHC reminds everyone that the influenza vaccine remains the best available tool for preventing illness.

Cases of influenza diagnosed in Boston and confirmed by any laboratory test must be reported to BPHC by calling (617) 534-5611 or faxing reports to (617) 534-5905.
**Weekly % ILI ED Visits, 2013-2016**

- **2013-2014**
- **2014-2015**
- **2015-2016**

*Influenza-like illness (ILI) is defined as "flu" OR "fever and a cough or sore throat" in the ED chief complaint as captured by the BPHC Syndromic Surveillance System.*

**Comparison of ILI Using Flu Near You (FNY)* ILI Data and ED Visits for ILI, 2013-2015**

*Flu Near You (FNY) compiles weekly data of ILI activity in the United States. The data come from short, weekly internet-based surveys completed by voluntary participants who indicate whether they are healthy or have experienced any of a short list of symptoms.*

The public may participate by enrolling in FNY at: [https://flunearyou.org/](https://flunearyou.org/)
