Clinical Information

_____
(Patient Name) (Date of Birth)

The BPHC TB Clinic has received a request for an appointment the patient referenced above.
To schedule an appointment, the following information is needed:

☐ **TUBERCULIN SKIN TEST (MANTOUX, PPD):**

The **size** of the TST is critical in determining appropriate treatment. The TB Clinic no longer accepts a patient's verbal report of a positive reaction. For all patients with an undocumented history of a "positive" TST, **a repeat TST must be done or approval given by the TB clinic allowing for exclusion** prior to receiving an appointment. Please contact the clinic triage office at (617) 534-4875 to discuss any patient or provider concerns.
